

BATH COLLECTION

THE JACUZZI® BRAND

EARLY
1900s

The seven Jacuzzi brothers emigrated from Italy to California. Hard-working inventors, they broke new ground in aviation and agricultural hydraulics.

1956

Brother Candido Jacuzzi developed the J-300™ pump to provide pain-relieving hydrotherapy to his son, who suffered from arthritis.

1968

Third-generation Roy Jacuzzi designed the jetted bath, which led to the modern hot tub era.

2000

Jacuzzi became a global corporation holding more than 250 patents worldwide.

2017

Jacuzzi Luxury Bath brings the industry full circle by introducing the exclusive freestanding Whirlpool baths.

TODAY

The expanded Jacuzzi® Solid Surface Collection comprised of bathtubs and sinks launched.

INTRODUCING THE JACUZZI® SOLID SURFACE COLLECTION

Jacuzzi goes back to nature with the expanded Solid Surface Collection. Using our premium Luxecast® composite material, containing minerals derived from natural stone, we have created more sophisticated and imaginative designs in baths and sinks than ever before.

HIGH STYLE, ENDURING QUALITY

The clean design aesthetic of the Collection is rendered with meticulous attention to detail in our Solid Surface blend. Fortified with the earth's minerals, it enables us to offer extremely durable products backed by a five-year bathtub warranty, a 90-day sink warranty and an extensive service network.

PRISTINE FINISH

The boldly shaped vessels in the Collection have an easy-to-clean, non-porous finish that resists bacteria and stains. Available in a gloss or matte white, the high-performance finish will remain velvety-smooth through years of use.

INSULATING PROPERTIES

The insulating properties of the Luxecast® material help keep the bath water warm. With warmth plus body-cradling ergonomic design, the Jacuzzi® Solid Surface Collection ushers in a new age in soaking comfort.

WATER THAT MOVES YOU™

Hydrotherapy

Jacuzzi® baths are designed to maximize the benefits of hydrotherapy. Deeper than traditional baths, Jacuzzi® bathtubs are ergonomically shaped so people of all body types can fully immerse in warm water.

WHY SOAKING MAKES YOU FEEL BETTER

A warm water bath can help reduce stress and promote healing. Soaking in warm water induces "systemic heating," a deep heat that can increase muscle temperature to improve circulation and boost oxygen levels in blood cells. It has also been shown to alleviate the discomfort of stiff joints and muscles, and ease tension.

NEW HEATED SOAK

The Heated Soak experience by Jacuzzi Luxury Bath keeps the water warm without needing to add more hot water. Two mini jets circulate warm water continuously for a long, relaxing soak.

FOUR BENEFITS OF A FULL-BODY SOAK

- Relieves the weight of gravity on joints
- Provides 360-degree support for sore and tired limbs
- Decreases swelling and inflammation
- Increases circulation and oxygen in blood cells

TLC THERMAL LUMBAR

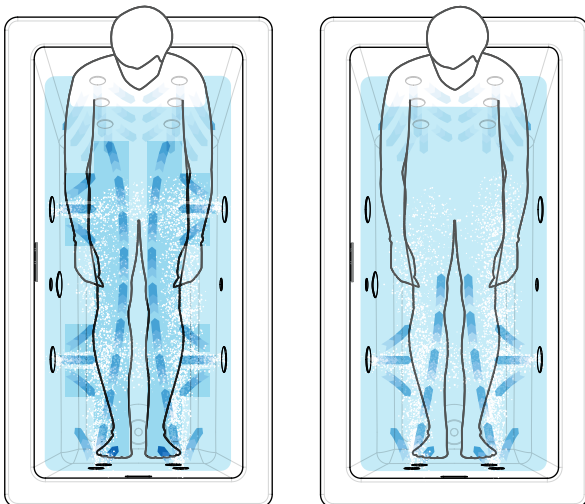

COMFORT™ air injectors target relief to the lower lumbar area, a common trouble spot. TLC is part of the Pure Air® bath experience.

Hydromassage

WHAT MAKES JACUZZI® HYDROMASSAGE EFFECTIVE

Gentle pressure on muscle tissue increases circulation. This stimulates blood flow, which can help muscles and joints recover from fatigue or injury, and makes it easier to move.

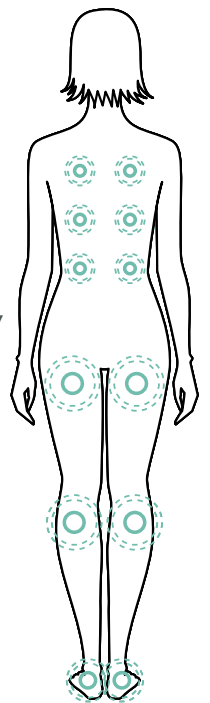

The exclusive, patented TargetPro™ jet system creates specific massage types for different areas of the body. You can personalize the experience by adjusting the direction and intensity of the jet stream.

Sitting or standing for hours can slow circulation. Adjustable TargetPro™ jets help stimulate and direct blood flow where it's needed.

HYDROMASSAGE SOOTHES FATIGUE

- Relieves tension and prevents back strain
- Energizes circulation after sitting for long periods
- Promotes flexibility in hard-working calf muscles
- Sends massaging warmth to joints and sore feet

JACUZZI® BATH EXPERIENCES

Soaking

Modern science tells us why the ancient ritual of soaking in a warm bath is so restorative: hot water immersion has proven hydrotherapeutic powers. Increased circulation prompts the body's natural relaxation and healing mechanisms.

Heated Soak

The new Heated Soak experience allows for a longer soak without adding more hot water. Two mini jets circulate warm water continuously for a long, relaxing soak.

Pure Air®

Small bubbles of air in warm water create a revitalizing effect. In the Pure Air® bath experience, 360-degree air inlets burst with effervescence, stirring up a whole body massage that reduces tension and stress, and leaves skin with a healthy glow.

Whirlpool

The Jacuzzi® Whirlpool bath experience has been unmatched since its commercialization in 1956. Including patented jets like TargetPro™, ours is truly a unique brand of Whirlpool action. Jacuzzi® jet systems push high volumes of water uniquely mixed with air into a swirling bath. The result is a targeted massage stream with staying power.

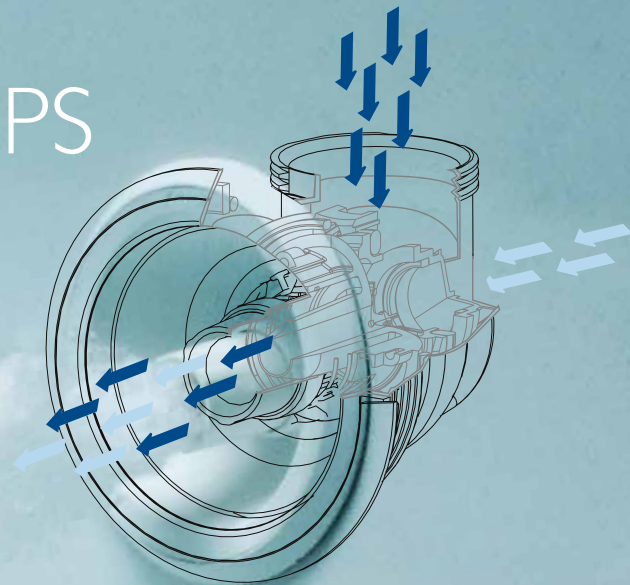

Salon® Spa

An intense Jacuzzi® Whirlpool massage or the soothing Pure Air® bubbling air bath? The Salon® Spa offers both experiences in one luxurious bath. The Whirlpool jets effectively massage away muscle soreness and ease joint pain. Pure Air® bubbles relax and rejuvenate. In all, there are more than a dozen personalized hydromassage options in the Salon® Spa.

JACUZZI® JETS & PUMPS

Personalized Hydromassage

JACUZZI® AQUALIBRIUM®

A perfect balance of air and water is vitally important to the quality of any whirlpool system. A jetted water stream that flows smoothly all around, from the outer edges to the core, delivers an effective massage without being overly aggressive. Jacuzzi® jets maintain an optimal mix of air and water to create a high-flow, low-pressure massage.

Technology Upgrades

WHISPER TECHNOLOGY™

A vibration-reducing mount allows you to enjoy the peace and quiet of a jetted bath with less noise and vibration.

WHISPER+ TECHNOLOGY™

This unique technology reduces noise and vibration up to 66% compared to standard whirlpool baths.* The moving water simply sounds like relaxing waves.

It's also eco-friendly, using 60% less energy than a standard heated whirlpool system.** The brushless motor transfers heat energy back into the water to keep the water warm. With the motor mounted on the unique vibration-absorbing base, Whisper+ takes quiet to a new level.

Our Jets

Jacuzzi® jets are engineered to provide a variety of high-performance hydromassage options. Adjustable jets allow you to personalize the experience by adjusting their direction and intensity.

ROTATING NECK JET

The best performing spinner jet in the industry offers unparalleled neck and shoulder massage.

ACCUPRO™ JET

AccuPro™ jets are highly adaptable, with directional adjustability. True to their name, these medium-sized jets accurately target the back and feet.

SLIMPRO® JET

Powerful ultra-low profile SlimPro® jets are the precision-focused stars of the system. Sleekly designed, they lie flush along the bathtub walls for added comfort and a subtle look.

TARGETPRO™ JET

The patented TargetPro™ jet is our exclusive, high-flow jet that's powerful as well as nimble. You decide on the intensity and direction of the water stream – these fully adjustable jets are built for a personalized hydromassage experience.

PATENTED TARGETPRO™ JET

Exclusively developed by
Jacuzzi Luxury Bath

AESTHETICS

Contemporary styling features tapered edges and a choice of finishes.

DIRECTIONAL CONTROL

Change jet direction up to 60 degrees to target specific areas of the body.

HIGH PERFORMANCE

Jets and pump provide adjustable flow rate and an optimal air-water mix.

ADJUSTABILITY

A twist of the jet can increase or decrease intensity, or close a jet completely.

CLEANABILITY

Smooth jet surfaces simplify cleaning.

CLEANLINE® SYSTEM

Engineered to provide a cleaner bathing experience

CLEANLINE®

All water pipes have anti-microbial additives to ensure the purity and durability of jetted pipes in Heated Soak, Whirlpool and Salon® Spa bathtubs.

NON-POROUS ACRYLIC

The non-porous characteristic of Aristech Bio-Lok® acrylic sheet defends against the penetration of microorganisms into the surface.

AUTO-DRI™

The pre-programmed Auto-Dri™ feature drives excess water from lines in Salon® Spa and Pure Air® bathtubs.

DRAIN-DOWN PLUMBING

Drain-down plumbing in Salon® Spa, Pure Air®, Whirlpool and Heated Soak baths helps properly drain water lines.

SYSTEMS CLEAN™

Jacuzzi® Systems Clean™ can be used to quickly deep clean, sanitize and deodorize Heated Soak, Whirlpool and Salon® Spa baths.

CHROMATHERAPY

CHROMA: A quality of color combining hue and saturation.

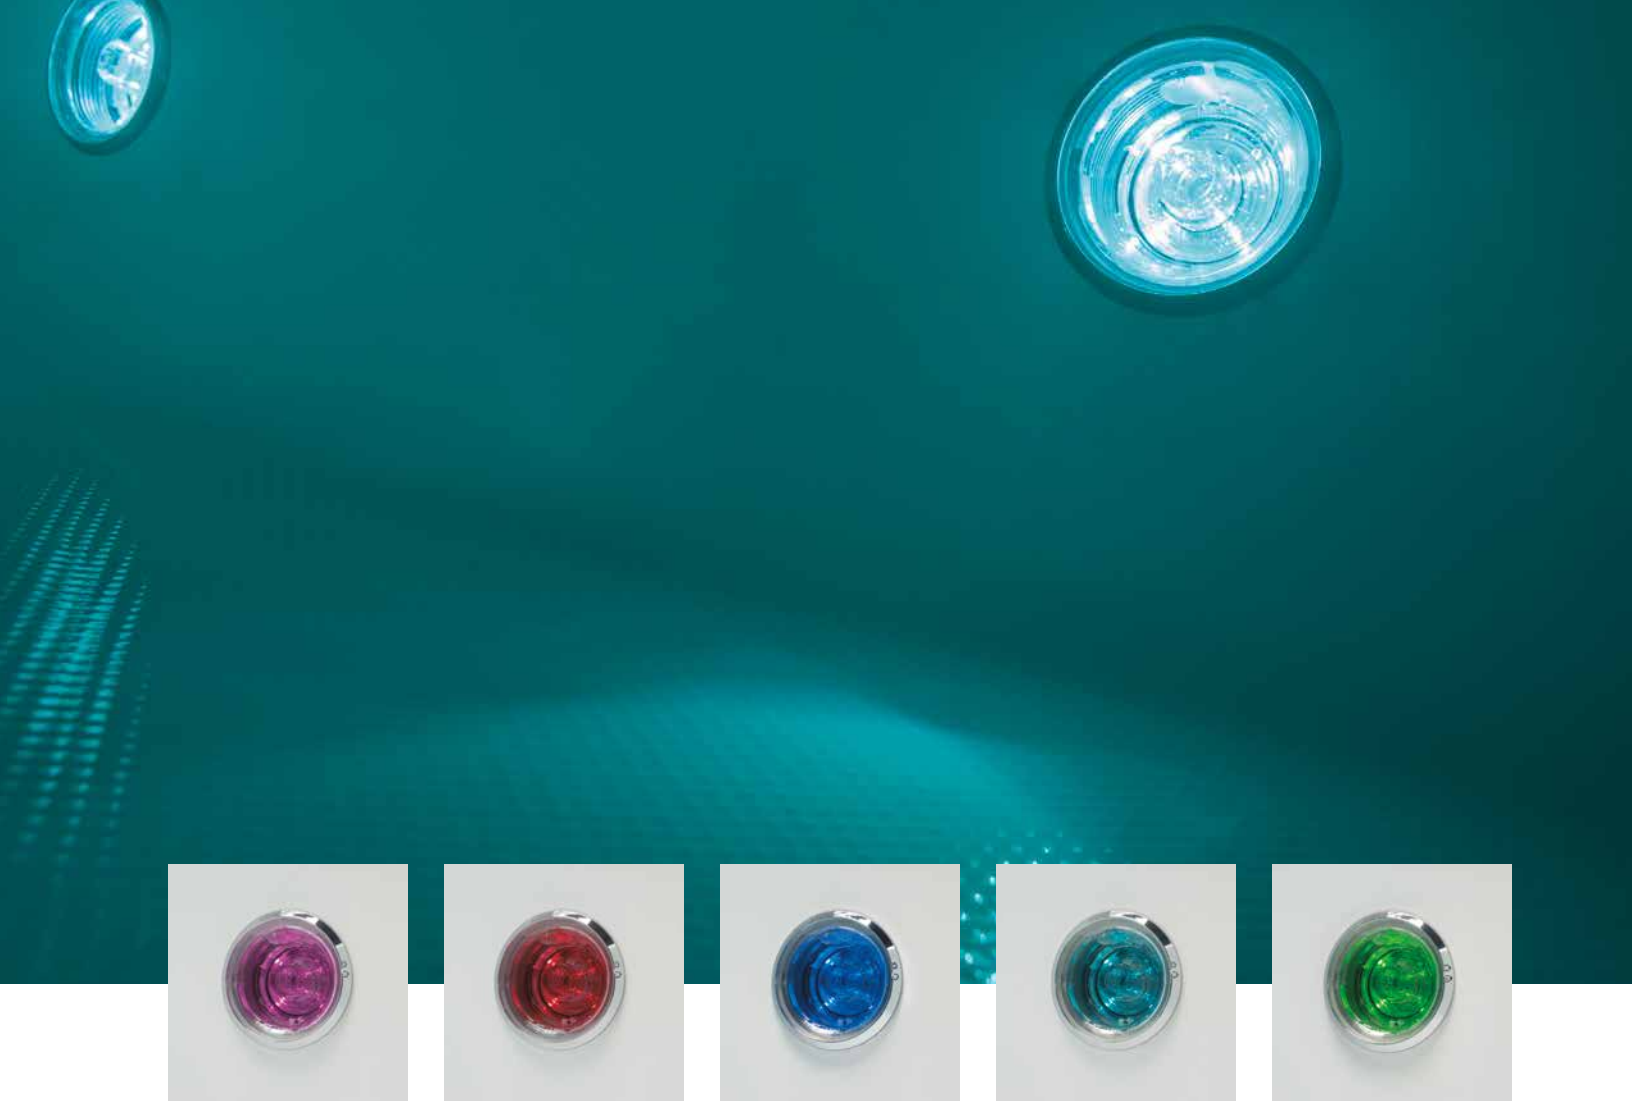

Chromatherapy is the use of color and light to restore balance and well-being. All the colors found in nature come from light, each one having a specific frequency and vibration that can influence our physical and psychological state.

Studies have shown how color and light affect learning, productivity and health. The impact of colored-light medical treatments has also been well documented.

WATER, LIGHT AND COLOR

Jacuzzi® Chromatherapy features LED lighting through a wall-mounted lens(es). Program a spectrum of colors and light intensities for a naturally beneficial experience. Chromatherapy is standard on select models and available as an upgrade on others.

Chromatherapy is also available as a lighted neck-massaging waterfall feature on select Fuzion® bathtubs.

ILLUMATHERAPY™

Color and light sparkle from within four patented TargetPro™ jets. Exclusive technology used in the Illumatherapy™ LED lighting upgrade adds highly saturated color to the bathing well.

Programming lets you choose from a spectrum of colors and light intensities for a unique experience every time you bathe.

COLOR MOODS

PINK/RED: Fire, intensity and alertness. Stimulating and energizing, the color red can increase blood flow and body temperature for improved vitality. Pink, on the other hand, has a pacifying effect.

BLUE/TEAL: Sky and ocean, coolness and calm. Blue Chromatherapy encourages you to breathe naturally and let go of muscle tension. Studies have shown that blue-light therapy can help lower blood pressure and reduce inflammation.

GREEN: Nature, health and harmony. Said to be useful in quieting the nervous system and boosting immunity, green bestows a comforting effect which may help fight insomnia.

JACUZZI® BRAND

Jacuzzi Group Worldwide is a global organization with more than 250 original product patents and thousands of employees. Valvasone, Italy, the Jacuzzi family's home of origin, is a key center of this worldwide network. Jacuzzi Luxury Bath is headquartered near Los Angeles in Chino Hills, California.

Globally known for luxury, Jacuzzi® Brand zealously researches science and technology advances to design and develop beautiful products for contemporary lifestyles. Since 1956, when Candido Jacuzzi commercialized the first at-home hydrotherapy pump, every product made by Jacuzzi has been created for the same reason: to provide a rejuvenating and refreshing hydrotherapeutic experience that revitalizes both body and spirit.

California Design Crafted in Georgia

From our design engineers in California to our tradespeople in Georgia, we take pride in carrying on the Jacuzzi® legacy of quality. First to transform bathing into an experience, Jacuzzi leads the industry with new product styles and innovative hydrotherapy. Jacuzzi® baths and showers are shipped from Georgia for delivery across North America.

WATER THAT MOVES YOU™

WARRANTY
